

PACKAGING DYNAMICS
**BAGCRAFT
PAPERCON**®

INNOVATIVE ■ PRACTICAL ■ SUSTAINABLE

Flexible Foodservice Packaging

Why EcoCraft® Products?

BagcraftPapercon converts paper into foodservice packaging from an abundant, renewable resource: trees. Natural kraft paper was chosen for the EcoCraft® line.

Foodservice packaging made from natural kraft paper is more than just a sustainable look or trend. Natural kraft paper offers a significant benefit toward a more sustainable environment.

Advantages of producing natural, unbleached paper versus bleached paper*:

- 21% Less wood pulp used
- 10% Less greenhouse gases produced
- 46% Less waste water released
- 16% Less solid waste produced

We save 6,089 trees and remove 15 full swimming pools of waste water and 13 garbage trucks of solid waste for every 1,000 tons of natural kraft paper produced versus bleached paper of the same basis weight.*

Natural Advantages of EcoCraft® Products

- Third-party certified compostable and biodegradable
- Made with FDA-approved natural kraft, chlorine-free paper
- 100% post-consumer recycled paperboard - inner-carton packaging
- Soy-based inks on inner cartons
- Soy-blended wax on interfolded sheets for reduced reliance on petroleum wax
- “Right-size” flexible packaging for reduced carbon footprint versus rigid plastic or paperboard containers

Many green products today are not affordable. To make a lasting impact toward sustainability, volume is needed to drive economies of scale in the production of green solutions. The EcoCraft® brand maximizes sustainable benefits while keeping them affordable now.

We believe in the “Triple Bottom Line” approach in our journey of improvement:

- Social Responsibility – good for the people
- Ecological Responsibility – good for the planet
- Economic Responsibility – affordable choices

Take a simple step toward a sustainable future.

*Environmental-impact estimates made using the Environmental Defense Paper Calculator. For more information, visit <http://www.papercalculator.org>.

DELI & FOODSERVICE

- 4 ToGo! Hot Meal Packaging
- 5 ToGo! Carryout Packaging
- 6 Waxed Sandwich Wraps & Basket Liners
- 7 Grease Resistant Wraps & Basket Liners
- 8 Poly-Wax Sandwich Wraps & Basket Liners
- 9 Insulated Sandwich Wraps & Tray Liners
- 10 Interfolded Sheets
- 12 Foil Insulated Wraps
- 13 Foil Sandwich & Hot Dog Bags
- 14 Sandwich & Hot Dog Bags
- 15 French Fry & Specialty Bags
- 16 Popcorn Bags
- 17 Hospitality Packaging

BAKERY & COFFEE

- 18 Dubl-Wax® Bags & Bakery Tissue
- 19 Pan Liners & Baking Sheets
- 20 Bread Bags
- 21 Window Bread Bags
- 22 Pastry & Cookie Bags
- 23 Coffee Bags

MEAT & BUTCHER

- 24 Steak & Patty Paper
- 25 Butcher & Freezer Paper

ToGo! Hot Meal Packaging

- Innovative ventilation system keeps food flavorful and crispy
- Grease resistant, high barrier paper provides stain protection
- Clear anti-fog windows maximize visibility and impulse sales
- Significantly more sustainable than rigid plastic containers

Poly-Wax Sandwich Wraps & Basket Liners

Insulated Sandwich Wraps & Tray Liners

- Poly-Wax provides superior grease and moisture protection
 - Improved heat retention vs. standard paper wraps
- Coated with Poly-Wax on one side of the sheet
 - Innovative 5-in-one print design provides inventory and cost reduction
- Superior heat retention vs. standard wraps
 - I-Rap™ retains heat while allowing moisture to escape
- Excellent grease and moisture resistance
 - Absorbent tray liners provide easy release from food

Interfolded Sheets

Interfolded Sheets

- Easy-to-grab sheets in a convenient pop-up box dispenser
- Perfect choice for pick up sheet applications
- EcoCraft® tissue is treated with a soy wax blend
- HDPE sheets provide a superior moisture barrier

- Easy-to-grab sheets in a convenient pop-up box dispenser
- Multiple uses: food wrap, scale sheet, pick up sheet and basket liner
- Dry wax provides moisture resistance and wet strength
- EcoCraft® deli sheets are treated with a soy wax blend

Foil Insulated Wraps

Foil Sandwich & Hot Dog Bags

- Honeycomb design creates air pockets for superior heat retention
- Excellent for foods displayed in heated cabinets
- Paper liner provides moisture absorption and keeps buns fresh
- Foil spreads heat and maintains a fresh premium appearance

- Foil and paper lamination provides heat retention
- Fast loading for high-speed service
- Honeycomb design creates air pockets for superior insulation
- Upscale appearance boosts sales and image

Dubl-Wax® Bags & Bakery Tissue

Pan Liners & Baking Sheets

- Dubl-Wax® coating allows bags to breath while keeping baked goods fresh
- Bakery bags can be placed in the freezer without additional wrapping
- Bakery tissue is an economical choice for picking up donuts and pastries
- EcoCraft® bakery tissue is unbleached and treated with a soy wax blend

- Vegetable parchment 4-Star and 5-Star silicone pan liners provide superior release for high temp baking
- All pan liners are kosher certified (Star K)
- Economical 2-Star liners provide good release for medium temp baking
- EcoCraft® 2-Star pan liners with improved release are unbleached, compostable and biodegradable

Steak & Patty Paper

- Steak paper is designed to keep meat juices and bloom locked
- All steak and patty papers are FDA and USDA approved
- Patty paper is dry wax treated for moisture resistance and easy release

Butcher & Freezer Paper

- Economical table covers offer protection and easy clean up
- All butcher and freezer paper products are FDA and USDA approved
- Poly-coated freezer paper provides a superior moisture and vapor barrier

CONVERTING CAPABILITIES

- Printing
- Bag Manufacturing
- Sheeting
- Laminating
- Interfolding
- Coating
- Die Cutting
- Rolls
- Perforating
- Tin Tie & Closure Applications
- Rewinding

CUSTOM PRINTING

Contact your local BagcraftPapercon sales representative to start the quote and custom print process. You can identify your local BagcraftPapercon representative at www.bagcraftpapercon.com/rep.html or call 800-621-8468 ext. 8014.

BagcraftPapercon maintains a complete graphic and pre-production department to process your custom graphics and package design requests.

Receivable Media & Software

We can receive your files via the following formats:

- CD or DVD
- E-mail (files below 4mb)
- File Transfer Protocol (FTP)

We accept the following software:
(include all images that are used with each file)

- Adobe Illustrator thru v.CS4
- Photoshop thru v.CS4
- PDF (outline fonts)
- Quark Xpress thru v.8
- InDesign thru v.CS4

Graphics Guidelines

For detailed flexographic printing guidelines, please e-mail your request to itemsetup@pkdy.com or download the PDF document of the guidelines from our web site at www.bagcraftpapercon.com.

SALES POLICIES

For a detailed list of our sales policies, please download the PDF document from our web site at www.bagcraftpapercon.com or call 800-621-8468.

2, 3, 4 or 5 in ONE Wrap

Innovative print design allows identification of multiple products with one wrap reducing inventory and packaging costs

Basis Weight

The weight in pounds of a ream, 500 sheets of paper, cut to a given standard size for that grade

Coated One Side

Sandwich wraps and basket liners coated on one side with a polyethylene and wax blend for improved heat retention and moisture resistance

Dead Fold

Common characteristic of foil wraps and bags; once wrapped or closed, the fold does not come undone

Dry Wax

A process where wax is applied to the sheet in such a way that the majority of the wax is driven into the paper with little or no wax left on the surface

Dubl-Panel® Bags

Full-length window with paper panels on each side; common bag design for bread and sandwich packaging

Dubl-Wax® Bags

Special process places heavy, glossy wet wax on one side and a lighter, dry wax coating on the other side; provides improved moisture, grease and oxygen barrier to keep foods fresh longer

Grease Proof

Paper that offers superior resistance to the penetration of grease and does not stain

Grease Resistant

Paper that has good to excellent resistance to grease penetration

Gusset

The side panel of a bag; second measurement taken when sizing a bag

HDPE

High Density Polyethylene; stiffer and stronger than Low Density Polyethylene

I-Rap™

Two-ply grease resistant paper lamination with a large honeycomb adhesive pattern that creates insulating air pockets for improved heat retention

Interfolded

Sheets folded into each that can be pulled one at a time from a carton dispenser

Laminate

Paper, Foil or Film materials are bonded together to form a stronger material with improved barrier characteristics

Lip

The cut-out portion at the front of the top opening of a bag; when measuring a bag with a lip, always measure the height from the bottom of the bag to the lip

MVTR

A measurement of a material's resistance to water vapor penetration

Open Sesame® Bags

Open top and side sandwich bags for easier eating on-the-go

Pinch Bottom Bags

Any bag with an "edge" bottom that is heat sealed or glued

Process Printing

Printing process that utilizes four basic colors (cyan, yellow, magenta, black) and halftones

Release

The characteristic of how a food product adheres to the material used

Scale Paper

A sheet of material that is placed on a scale to prevent the food from touching

SOS Bag

Self-opening style bag can be held with one hand and opened to fill

TAC-Label™ Seal

Peal-off label style bag sealing device used as an alternative to Tin Ties

Wet Strength

A property where the sheet, after saturation with water, still retains significant strength properties

Wet Wax

A process where wax is applied in such a way that wax is present on the surface of the sheet covering the paper fibers

ZZZip-Strip™ Bags

Twin perforations down the bag face allows top to be peeled back for clean, easy access to food

I N N O V A T I V E

BagcraftPapercon opened its doors in 1948 with 5,000 square feet of space, two machines and a passion for innovation. Sixty years later, we are the largest paper-based, flexible foodservice packaging company in North America with five manufacturing plants spread across the United States. Our commitment to innovation has produced 17 patents and multiple national and international packaging awards.

Innovation is critical in today's market as customers' needs and expectations for foodservice packaging have changed. Our engineering experience, research knowledge, graphics capabilities and passion for innovation make us the best choice to develop flexible packaging solutions that exceed your expectations.

P R A C T I C A L

Practical packaging means less waste, fewer raw materials and greater savings on manufacturing, transportation and storage. Flexible foodservice packaging is the most practical, cost-effective choice for today's market and the future.

Consumers and operators want practical packaging alternatives to rigid plastic and paperboard. Our process printing capabilities, choices of barrier laminations and window designs provide flexible packaging solutions that are more practical and innovative.

S U S T A I N A B L E

BagcraftPapercon believes sustainability is a journey of continuous improvement, not a destination. This approach keeps us working hard toward our goals to improve our sustainable practices and products. BagcraftPapercon is a member of the Sustainable Packaging Coalition.

With our EcoCraft® brand, we were the first company to offer a full stock line of unbleached, sustainable foodservice packaging in North America. Sustainable packaging must be affordable to make a significant environmental impact. EcoCraft® maximizes the sustainable benefits while keeping them affordable. Purchasing EcoCraft® is a way to take a simple step on the journey toward a sustainable future.
