## Drain Net Strainers

### What does a Drain-Net do?

- Floor drains are treated like trash cans
- Drain Net is your floor drain's garbage bag
- Captures all food scraps and solid waste
- Fits all standard size drains, custom sizes available
- Green alternative to chemical pipe cleaners
- Simple and easy to install
- Available as solid molded plastic or flexible net

### How can the Drain-Net help you?

- Eliminates flooded floors which can cause shutdowns, slip hazards, and health code violations
- Reduces FOG (fats, oils & grease) and BOD (biological oxygen demand)
- Solid style with absorbent will reduce sewer and drain flies
- Eliminates foul odors at the source
- Prevents costly repairs to pipes

"The drain nets have completely eliminated our clogged drain problems, flooded floors and we have discovered that keeping the solids out of our grease trap has dramatically reduced the amount of times we have to have our grease trap cleaned... We no longer have the foul odor of rotting food coming from the grease trap..." - Pete, The General Store

"These really worked well with the Chili's locations. They will save you a lot of money long term." —John Turek & Corey Wheeler, Chili's

"... The greatest gain I have found since using your strainer is that my store is no longer incurring great surcharge fees from the water authority due to high levels of food by products and chemical run offs... The strainers have already paid for themselves."

- Ivan, Ponderosa Steakhouse

# Floor and Sink Strainer Baskets

## How can a Strainer Basket help you?

- Prevents blockage and costly repairs to pipes before they occurs
- Prevents flooded floors which can cause shutdowns, slip hazards, and health code violations
- Eliminates foul odors at the source
- Maximize effectiveness when used in-line with Drain-Net
- Available with extension handles for ease of reaching underneath equipment

**DON'T LET YOUR PROFITS GO DOWN THE DRAIN!**

## Garbage Disposal Replacement Unit

### What does a GDRU do?

Instead of grinding the food waste and wasting precious freshwater for flushing, the strainer-drawer in GDRU strains solid particles under the pre-rinse sink when dirty dishes are being pre-rinsed, affecting a much needed pretreatment process of restaurant wastewater.

To ensure the food waste is not flushed down your drains, install our GDRU to catch any solid waste before it enters the piping system and grease trap/interceptor. This will help to eliminate the backflows and the foul grease trap/interceptor odors.

### How can the GDRU help you?

- Saves money on water and electricity
- Environmentally friendly
- Keeps grease trap or interceptor cleaner and lowers maintenance frequency
- Encouraged (or required) by local governments and Water Districts
- No moving parts to maintain or repair
- Prevents costly repairs to pipes
- Various models and sizes available

**Model GDQ-B13**  
Price: \$249.95

**Model FPS-610**  
Price: \$299.95

## "Lock and Stop" *Drain Strainer Converter Kit*

### Stop others from using your drains like trash cans!

- Are you tired of paying costly plumbing bills because others are using your drains as the lazy way to sweep away food, garbage, and large debris?
- If you're not sure what's going down your drains, take control with the Lock and Stop drain strainer converter kit.
- This is the first and only converter kit which does not require you to purchase new drain strainers.
- All parts are 100% stainless steel making it durable and corrosion proof.
- Lock and Stop is also the only locking solution which comes with a free Drain-Net which conveniently fits underneath your locked drain strainer! When used together, you possess the best defense against unwanted drain clogs.

### Takes only minutes to install

1. Drill a hole through your drain strainer (kit includes a drill bit)
2. Place the Lock and Stop in the drain and extend the bolts until they are pressed firmly against the pipe
3. Twist the hexagon joint to tighten bolts against the inner wall of pipe
4. Align the vertical bolt to go through the hole in your drain.
5. Tighten and lock drain with the unique tool we provide.

### Replacement Adjustable Drain Strainer

- Replace rusted or broken cast iron strainers or bar grates
- Heavy gauge stainless steel making it 100% corrosion proof
- Adjustable screw clips to fit almost any drain
- Gripping fingers fit snugly inside pipe keeping strainer securely in place
- Fits any drain regardless of make. Simply tell us the size you need by measuring the ID (inside dimension) of the drain. A screw driver is all that is required to install.
- Also available in locking style and in custom sizes.

Part Number	Description	Size	Cost
LS020	Lock and Stop Strainer Converter Kit	2"	\$38.50
LS030	Lock and Stop Strainer Converter Kit	3"	\$39.50
LS040	Lock and Stop Strainer Converter Kit	4"	\$41.75
DN847-7B	Adjustable strainer to fit 3 1/4" – 6 3/4" drain openings	7 1/4" diameter	\$20.29
DN847-9	Adjustable strainer to fit 5 1/4" – 8 3/4" drain openings	9 1/4" diameter	\$50.00
DN847-7BL	Adjustable strainer to fit 3 1/4" – 6 3/4" drain openings with locking capability	7 1/4" diameter	\$40.29
DN847-9L	Adjustable strainer to fit 5 1/4" – 8 3/4" drain openings with locking capability	9 1/4" diameter	\$90.00

**DON'T LET YOUR PROFITS GO DOWN THE DRAIN!**

# Grease Monitoring Systems

Until now, grease interceptor management has been guess work.

The sensor located in the GI transmits status to the remote receiver.

The sensor alerts you when your interceptor requires service.

With provided software you can easily view, print, and save your GI data.

## How a grease monitoring system can help you

The biggest challenge with any Grease Interceptor is regular maintenance to ensure operation within it's rated capacity. Until now this process has been all but guesswork on the part of the restaurant operator, often resulting in the interceptor becoming overloaded and FOG being released to the local sewer system – the very thing that the interceptor was put in place to prevent. Don't risk guessing when states can charge up to ten thousand dollars per day for FOG discharges into the city sewers. Drain-Net offers both a wireless and manual solution to leave the guess work out of grease monitoring.

### Wireless Solution

- Sensor located in the GI transmits status to the remote receiver
- No electrical supply or installation
- Sensor and Receiver operate on AA batteries
- Easy installation and set-up for new and retrofit applications
- Sentry holds 12 months of rolling data -definite proof of maintenance
- Recordable data downloadable to your PC

Part #: D394600  
Price: \$985.00

### Manual Solution

- Accurate readings of settled solids in a variety of liquids
- 1"OD x 5' sections of flexible acrylic tubing with footage markers
- Float valve on bottom section allows material to flow in and traps the column of solids in the tube

Part #: DB01322WA  
(Please specify required length)  
Price: \$140.00

# Manual Grease Traps

Building owners spend millions of dollars every year combating grease accumulation in plumbing systems. Grease accumulation causes sewer blockages and overflows. These overflows are a health risk to you, your employees, your customers and the general public. Additionally, many states charge up to ten thousand dollars per day for improper management of FOG discharge. Drain-Net offers manual grease interceptors for effective separation and retention of grease and oil from normal waste, permitting normal liquid wastes to discharge safely into the sewer system.

- Award winning flow control without cleanup top
- Can accommodate continuous discharge at 104°C (220°F)
- Can support 440 lbs of pedestrian and light duty traffic.
- Injected molded in engineered thermoplastics eliminating seams and potential leaking and odors.
- It will not corrode, chip or peel, even under the most severe applications
- Flexibility of installation—can be installed in-floor, on-floor, or semi-recessed
- New quick catch system eliminates nuts and bolts on cover
- Recessing extension kits available
- 10-year warranty

### Low Boy Grease Interceptor

**New!**

With an 11 inch height the GI still meets the requirements of ASME112.14.3. Internal components can be removed in less than 6" of additional clearance making this unit a truly low profile solution.

Part #: 3925A02LO  
Price: \$462.80

Custom sizes and fabrication available. Whatever you need we have it! Please refer to our Drain-Net quick sizing chart on our web site, simply plug in the dimensions and let our system do the rest. As simple as 1,2,3! Please consult our website for simple a simple guide on sizing your grease trap.

**DON'T LET YOUR PROFITS GO DOWN THE DRAIN!**

## Complete Drain Solutions

### Drain Brush

- 36" flexible wire allows brush to easily access hard to reach floor drains
- New splash guard to ensure anything splashing out of the drain on removal hits the bottom of the Splash Guard and not the user's clothing, shoes, etc.
- Polypropylene bristles and three wire twist design to ensure the brush doesn't fall apart. Single bristle design for max strength and cleaning power.
- Poly Ball on the end to guide smoothly through elbow turns in drain pipes
- Always wear gloves and protective eyewear when working with cleaning solutions

### Drain-Net Cleaners

#### Drain-Net Sanitizer

- To best protect your customers and your reputation, use Drain-Net Sanitizer in your drains to aid in the prevention of roaches and sewer flies.
- Drain-Net Sanitizer is strong enough to kill dangerous bacteria and viruses including HIV-1, influenza, and salmonella.

#### Drain-Net Degreaser

- Drain-Net Degreaser is a concentrated, heavy duty, low foaming cleaner and degreaser.
- Safely dissolves most grease and oil on surfaces including kitchen grills, hoods, floors, drains, and grease traps.

### Extermin-Net

- Drains often attract roaches, sewer flies and other unwanted pests
- A Drain-Net containing Extermin-Net tablets will attract and kill the bugs
- Extermin-Net is safe for humans and pets
- Extermin-Net contains no harmful chemicals and is environmentally safe
- Keep your food safe and your customers happy
- Can be used in kitchens, bathrooms, and dining areas

## Accessories

### Floor Sink Replacement

- Grate prevents large debris from passing through to the drain.
- Available in full, half, and three quarter sizes

### Trench-Drain Strainer

- Used in-line with our flexible drain strainer line.
- Our 4" Trench-Drain Strainer fits most all U and V-shaped trench drains.
- Designed to fit securely in most trench drains.
- Strainer can be caulked in place or left loose for ease of installation and cleaning.

### Extendo-Net

- Stop! struggling to empty those hard to reach baskets in drains located under your equipment.
- Made of solid non corrosive plastic.
- Can be made to any length to fit your need.
- Eliminates unnecessary strain on your back and joints.
- Can be added to any of your current drain baskets.
- Makes cleaning the basket simple.
- Simply tell us the length of the handle you desire

Part Number	Description	Size	Price
DN324709A	Floor Sink Grate—Full Grate	9" x 9"	\$23.53

DEN800	Extendo-Net to reach drain baskets (basket not included)	Custom length	\$20.00/ft.

# ATTENTION ALL FOOD SERVICE ESTABLISHMENTS

Do you ever have problems with your drains clogging?  
99% of the responses are **YES** of course but  
"We have someone who takes care of that."

## Our question is **WHY?**

The average for drain cleaning ranges from \$150 to \$500 depending on the day and time the cleaning is done.

## Why have you allowed this to become the "norm" for your restaurant?

"Especially in this economy!"

The drain cleaner doesn't add to your bottom line. He helps to drain it!

Contact Us Today

## CLOGGED DRAINS

## Our suggestion:

**Cut all unnecessary expenses and start using Drain-Nets in your drains.**

For approximately \$50 per store, this "one time purchase" can save you thousands of dollars and permanently eliminate your ongoing drain cleaning expense. You will also be reducing your exposure to slip and fall accidents that are commonly caused by flooded and wet floors. We suggest advising your insurance carrier that you have taken these proactive safety steps.

**Still not sure?** Give us a call at 800-407-3726 and we will help you select the correct Drain-Net product for your store. It's time to break those old bad habits and concentrate on what you do best (running your business) and allow Drain-Nets to give you the extra time and money to do so.

All Drain-Nets have a full money back guarantee if you are not completely satisfied.
