You've Never Seen ...

GREEN CLEAN Like This Before

Earth Friendly Products, the leader in consumer bio-based, environmental cleaning products is now available to the professional industry.

You have never seen environmental standards like this before, with power and performance that will astound you.

Our products are made from natural organic plants and renewable minerals such as lemon oil, olive oil, lavender, coconuts, cedar oil, parsley essence, earth salts, cotton blossom oils, and tea tree oil.

Each product is formulated under the strictest environmental standards that surpass the industry's current accepted green credentials:

- 100% sustainable ingredients • plant-based formulas
- GMO-free (Genetically Modified Organisms)
- USDA NOP (Natural Organic Products) essential oils
- biodegradable formulations • neutral pH • phosphate-free
- caustic-free • formaldehyde-free • petrochemical-free • dye-free
- chlorine-free • synthetic perfume-free • ammonia-free
- greywater/septic safe

GREEN LINE COMPLETION Like This Before

EFP PROLINE offers the environmental products that are currently missing in other product lines. These RTU products pack performance that will astound you with a price that is competitive with concentrates. You'll save time and labor because you'll never worry about finding water sources or mixing correct dilution ratios. With confidence, you can boast a comprehensive line of environmental cleaning products like no other.

A SUSTAINABLE COMPANY Like This Before

Earth Friendly Products has over 20 years of plant-based manufacturing experience and is the most trusted environmental label on consumer shelves. The company has four strategically placed, company-owned manufacturing plants in Illinois, New Jersey, Florida and California.

Our program offers a complete green cleaning line with select distribution not available through redistribution. All products are completely manufactured and packaged in the USA, and are tested with a minimum of three freeze/thaw cycles.

A MANUFACTURING CODE Like This Before

All Earth Friendly Products are held to the highest environmental manufacturing standards and follow this "Freedom Code" to indicate each product is **free of the following ingredients:**

- Alkyl Phenol or Nonyl phenol
- Ammonia
- Ammonium Hydroxide
- Amyl Acetate
- Animal By-Products (and Animal testing-free)
- Artificial Colors/Dyes
- Artificial Fragrances/Perfumes
- Benzalkonium Chloride
- Benzene or Naphtha
- Boron or Borine
- Butyl Oxitol
- Butyl/Ethyl Cellosolve
- CFC and HCFC (chlorofluorocarbons)
- Chlorhexidine
- Chlorine/Hydrochlorite Bleach
- Chloroethane
- Cocamide DEA
- DEA (diethanolamine)
- Dioxane or diethylene ether
- EDTA or NTA
- Ethyl Alcohol/Ethanol (petroleum-based)
- Ethylene Glycol
- Fatty Acid Alkanol Amide/Amine
- Formaldehyde
- Hydrochloric Acid (Hydrogen Chloride)
- Isopropanol (rubbing alcohol)
- Kerosene
- LAS (linear alkyl sulfonates)
- Lye (Sodium Hydroxide)
- MEA (Monoethanolamine)
- Methanol
- Methyl Chloroform
- Methyltrichloroethane
- Mineral spirits
- Morpholine
- Naphthalene
- Optical brightener (synthetic)
- PDCB (paradichlorobenzene)
- Perchloroethylene (Perc)
- Petroleum Distillates/Petroleum-based ingredients
- Phosphates
- Phosphoric Acid
- Polycarboxylate
- Polyethylene Glycol (PEG)
- Propylene Glycol
- Quaternium 15
- Sodium Hydroxide (lye, caustic soda)
- Sodium Hypochlorite
- Sodium Tripolyphosphate
- TEA (Triethanolamine)
- Trace/heavy metals (mercury, lead, cadmium)
- Trichloroethane (TCA)
- Triclosan or Triclocarban

Through the Safer Detergents Stewardship Initiative (SDSI), EPA's Design for the Environment (DfE) Program recognizes environmental leaders who voluntarily commit to the use of safer surfactants. Safer surfactants are surfactants that break down quickly to non-polluting compounds and help protect aquatic life in both fresh and salt water. The Design for the Environment Program has identified safer alternative surfactants through partnerships with industry and environmental advocates. Earth Friendly Products is recognized as a Champion Partner, having demonstrated and documented the fact that we only manufacture products using safer surfactants.

THIRD PARTY RECOGNITION Like This Before

Our ingredient label is the best validation of the environmental purity and sustainability of our formulas. However, we understand the industry's need for reputable and unbiased third-party evaluation and recognition. We've identified the EPA's DfE program and the USDA's BioPreferred program as the most reputable and unbiased long-term partners to evaluate and recognize our products. Additionally, we have garnered the American Culinary Institute's Gold Performance Award for citrus cleaners.

Recognized for Safer Chemistry

CLEANERS

Parsley Plus® All-Purpose Kitchen-Bathroom Cleaner-Degreaser

Discover the cleaning and deodorizing difference of parsley and natural surfactants. Clean, degrease, and deodorize any water-safe surface with this versatile cleaner. Use for general cleaning and wipe-down with no dwell time or rinsing required. Leaves surfaces virtually residue-free. Neutral pH won't harm surfaces, including stone and marble. Can be used on kitchen and bathroom surfaces, painted walls, stainless steel, tile/grout, desktops, and whiteboards.

Ingredients: Parsley essence, biodegradable coconut-based surfactant, purified water.

PL9746/32 - 12-32 oz. spray

Orange Plus® RTU All-Purpose Cleaner-Degreaser

Orange Plus RTU delivers fast cleaning and degreasing with no dwell time or rinsing required. Will not irritate skin, eyes, nose, or lungs. Use on any water-safe, non-porous surface for a natural deodorizing power. Neutral pH can be used on all surfaces, including marble. Ideal for bathtubs, cabinets, ceramic tile, countertops, doors, floors, glass, plastic surfaces, porcelain, refrigerators, showers, sinks, stoves, washable painted surfaces, window sills, metal and chrome. Also removes adhesive residue and decals.

Ingredients: Pressed orange oil, ethanol (derived from corn), biodegradable plant-based surfactants, and purified water.

Furniture Polish and Conditioner (Natural Wood or Laminated Surfaces)

Care for wood surfaces with this all-natural, olive-oil based formulation. Plant-based cleaning conditioners loosen and gently remove fingerprints, smudges and dirt while restoring the natural beauty of the wood. Natural oil restores the luster of dry wood and protects surfaces from damage due to low humidity environments. Use on furniture, paneling, cabinets, and vinyl.

Ingredients: Olive oil, orange oil, emulsifier, and purified water.

Shower Kleener™ Light-Duty Cleaner and Surface Shield

Shower Kleener is two products in one - it's a light-duty cleaner for shiny surfaces and it creates a protective shield that prevents the build-up of mineral deposits and soap residue. Made with a corn derivative, lavender oil and tea tree oil, it is ideal for glass, ceramic shower doors, walls, wood and most flooring, sinks, counters and mirrors. Leaves surfaces shiny, tack-free, and protected.

Ingredients: Lavender oil, tea tree oil, ethanol (derived from corn), plant-based surfactant, purified water, sodium gluconate, sodium citrate.

Carpet Shampoo Concentrate with Bergamot and Sage (1:40)

This super-concentrate formulation can be used for either hot or cold water extraction. Can also be used as a spot cleaner on carpet or water-safe upholstery. Made with 100% replenishable ingredients, it naturally removes dirt, debris, body oil, and allergens. Since it leaves little to no residue, it resists re-soiling. Neutral pH formulation is safe for use on nylon, wool, olefin, cotton rugs, and most water-safe carpet fibers. Restores luster and texture while leaving a fresh, natural scent.

Ingredients: Bergamot & sage, purified water, sodium citrate, xantham gum, biodegradable low foam surfactant.

EcoBreeze™ Fabric Refresher

An economical and natural fabric deodorizer and refresher! Reactive plant extracts naturally combine with malodorous substances to neutralize them, while natural enzymes break down the source of odors. Use on any water-safe fabric surface including upholstery, carpet, linens, curtains, and drapes. The air is noticeably fresh-smelling after use. All three essential oil scents are petrochemical-free and plant-based so they will not trigger histamine responses.

Ingredients: Grapefruit seed extract, natural citrus blend, lavender and mint oils or lemongrass oil, natural anionic coconut kernel oil-based surfactant, ethanol (corn-derived odor eliminator), purified water.

AIR FABRIC

LAUNDRY

ECOS® Free & Clear Liquid Laundry & Microfiber Detergent

This unique formulation does not contain any essential oils (for fragrance), soy-based fabric softener, coloring, or cellulose optical brighteners. It is the laundering choice for individuals with sensitive systems, skin problems, or allergy concerns. The 100% natural, ultra-concentrated formulation cleans a 25 gallon load* with just 3/4 ounce. Cleaning to the most exacting standards, it leaves fabrics naturally soft while preserving the fiber's integrity. Ideal for microfiber as it maintains static charge while deep-cleaning fibers. Naturally keeps whites bright and colors vibrant and is effective in temperatures up to 185° F.

* Standard machines use approximately 40 gals per load, H.E. machines use approximately 25 gallons.

Ingredients: Coconut-based surfactant, soap bark, chamomile, horsetail (plant), and water.

ECOS® Scented Liquid Laundry Detergent

This unique hypo-allergenic formulation is strong enough to clean work clothes while gently preserving fabric fibers. A natural, fresh scent is created with the use of essential oils of lavender, lemongrass, or magnolia & lily. Whites remain bright and colors keep their vibrant hues while clothes are naturally deodorized. The ultra-concentrated formulation requires only 3/4 ounce for a 25 gallon load.* Natural, soy-based fabric softeners eliminate need for a separate softening product and reduces lint screen build-up. Use for towels, sheets, clothing, work clothes, and table linens.

* Standard machines use approximately 40 gals per load, H.E. machines use approximately 25 gallons.

Ingredients: Soap bark; chamomile; horsetail (plant); lavender; rosemary; either certified organic essential oil of lavender, certified organic essential oil of lemongrass, or essential oils of magnolia & lily; soy-based fabric softener; plant-based surfactant; purified water.

ECOS® Laundry Powder with OxoBrite Booster

Save time and money with this 3-in-1 laundry detergent that cleans, softens and brightens. The low-sudsing powder dissolves completely in all temperatures with a natural, perfume-free freshness. Built-in fabric softeners eliminate the need for a separate softening product while protecting fibers, preserving bright colors, and decreasing lint-screen build-up. The extra power boost from oxygenating whitener OxoBrite delivers a natural, bright white clean. Safe on the most delicate fabrics. Use on towels, sheets, clothing, work clothes, table linens, blankets, and all washable fabrics.

Ingredients: Sodium carbonate, sodium bicarbonate, sodium metasilicate, sodium sesquicarbonate, glucose based surfactant, soy-based fabric softener, and sodium percarbonate.

OxoBrite™ Oxygenating Whitener & Brightener

Use OxoBrite as a laundry bleach replacement, as a pre-soak, or as a power booster for carpet cleaning. It delivers a gentle, oxygen-powered action that lasts up to six hours. It whitens and deodorizes without harming fibers or altering colors. It is particularly effective on old spots and stains and removes mold and mildew stains. Use for removing organic stains (coffee, urine, feces, vomit), colored fruit and vegetable stains (strawberries, wine, berries), sugar stains, protein stains (blood, milk), grease stains (lipstick, olive oil, mascara), and ink stains.

Ingredients: Sodium percarbonate and sodium carbonate

Wave® Gel Dishwasher Detergent with Rinse Aid

Phosphate-free, non-etching formula shines glasses, plates, and utensils with a low sudsing formulation. Naturally cuts through grease and dried-on food to reduce pre-rinsing before loading. Built-in rinse aid eliminates need for additional rinse product. Can also be used as a pre-soak product for baked on food. Gentle enough to be used on fine china, porcelain, silver, and crystal. Works in all automatic dishwashing machinery and all temperatures.

Ingredients: Lavender oil & enzymes; biodegradable softening and dispersing agent; biodegradable low foam surfactant; xanthan gum; sodium citrate, purified water.

Wave Jet™ Rinse Aid

Naturally prevent spots and mineral residue from depositing on dishes, glasses, serveware and flatware with this natural formulation. Also rinses away residue and minerals contained in your wash-water. Will not etch metal or silver and is gentle enough to use on china, porcelain, and crystal. Ideal for areas with hard water. It is biocompatible with a wide variety of wastewater and gray water treatment systems and protects bacteria that enhance septic system performance.

Ingredients: Natural earth salts, coconut oil-based surfactants, purified water.

Earth Enzymes™ Build-up Remover and Drain Maintainer

Earth Enzymes is a natural, enzyme-based build-up remover and drain maintainer that replaces dangerous chemical-based drain openers. Using natural earth enzymes and bacterial mixtures, it digests food particles, grease, fats and human wastes without generating heat or malodors. Use for clearing clogged drains or for regular maintenance to avoid blockage on garbage disposals, kitchen drains, toilets, bath, shower and laundry drains. Safe for PVC pipes.

Ingredients: Proteolytic enzyme, bacterial mixtures, sodium sesquicarbonate.

UniTab® Plus Urinal Tab

Eliminate urine salt odors while maintaining fixtures for an extended life. Each time the fixture is flushed, a pre-measured amount of chemical compounds, enzymes and powerful cleansers are released that de-scale, de-lime, deodorize and maintain the fixture and drain lines. UniTab Plus also helps keep the drain lines clear and free-flowing by depositing a micro-thin coating that seals and protects, releasing an enzyme that digests organic materials. Last an average of 30 days.

UniBol® with Enzymes

A complete toilet maintenance system in a disposable one-piece unit. On every flush, a pre-measured amount of chemical compounds, enzymes and powerful cleansers are released that de-scale, de-lime, deodorize, prevent bacteria growth, and maintain the toilet and drain lines. Natural enzymes attack fixture odors by removing the source of the odor (uremic salts that accumulate in the drain), and by dispensing a mild, pleasant scent. Keeps drain lines clean and free-flowing by depositing a micro-thin coating that seals and protects. Also releases an enzyme that digests organic materials. Lasts an average of 30 days under normal conditions.
