

AVATAR SYSTEM

Equipment Details

At the heart of the system are the proprietary bottle inserts. The inserts feature an automatic, self-venting and anti-reversing check valve. It is recessed into the bottle neck and flush-mounted for safe, easy shipping and storage. When the end-user receives the Avatar product, the shipping cap is removed revealing the bottle insert. The color matched cap adapter is mated (screwed) to the bottle insert and the product is ready to use with the system.

BENEFITS

- Provides end-user with greater focus, easier training, and better employee safety
- Provides maximum value, simplicity and expandability
- The bundle instills confidence and end users will benefit with an undistracted chemical distributor
- Professional and durable installation
- Minimize inventory footprint, minimize chemical misuse/waste
- Each case includes an OSHA-compliant labeled spray bottle
