Safe-T-Fresh®

CRYSTAL CLEAR PACKAGING & PACKAGING AUTOMATION SOLUTIONS

Greetings From Our Owner

Hello, and thank you for your interest in the Inline Plastics Corp. product catalog. As the Owner and President of Inline Plastics, I am pleased to introduce you to our Company and the many packaging products and services that we have to offer.

Inline Plastics Corp. is a leading manufacturer of high quality, crystal clear PET clamshell and two-piece packaging designed to attractively merchandise baked goods, deli items, fresh-cut fruit and vegetables, salads and many other foods. Founded in 1968 by my late father, Rudolph, and his brother, Gene, Inline has grown from its humble beginnings in the basement of a family home in Bridgeport, Connecticut, to a Company with close to 300 employees occupying five facilities in the United States. Inline's corporate headquarters, primary manufacturing facility, and modern distribution center are located in Shelton, Connecticut. Our West Coast customers are efficiently serviced by our manufacturing and distribution facility in Salt Lake City, Utah. We are excited to announce the addition of our newest production and distribution facility in McDonough, Georgia. The new Georgia plant opened in late 2009, and enhances our ability to service our growing customer base in the Southeast U.S. Inline also maintains a facility in Milford, Connecticut, dedicated to our R&D efforts as well as tool design and fabrication in support of our three manufacturing plants. The company operates state-of-the-art thermoforming equipment and robotic packaging machinery at its production facilities and the newest technology available for engineering and tooling. At Inline, we emphasize continuous improvement in production efficiency with a view toward providing our customers with the highest level of customer service and competitive pricing.

On the cover of our catalog, we proudly display our award winning line of Safe-T-Fresh® clamshell packaging. The growing product line now consists of over thirty rectangular and round items in various customary sizes. These containers feature our patented Safe-T-Gard® tear strip which, after the container is packed and closed, alerts a consumer if the package has been tampered with. The tamper-resistant closures on Safe-T-Fresh® containers assure a very high level of leak resistance and eliminate the need for costly shrink bands.

As testament to our commitment to environmental stewardship, Inline has converted the manufacture of all its products to recyclable PET  material.

Supporting Inline's stock line of over 300 containers is a group of packaging automation systems tailored to handle and process the packing of our containers. Proven solutions for production line automation exist, and our experienced engineering staff will be happy to assist you in the integration of our automation systems into your current process and facilities. From container filling and locking to tamper evident labeling, Inline Plastics is proud to be the only company in the industry providing automation solutions that will help reduce your labor costs while also increasing your product throughput and operating efficiencies.

At Inline Plastics, our mission is to be the best at supplying our customers with high quality, cost effective, and innovative packaging and packaging automation solutions. I invite you to visit our website at www.inlineplastics.com to find out more about how we can help you meet your packaging requirements.

In a very competitive market that offers many different packaging options, we are pleased that you have shown interest in our products and services. Rest assured that our dedicated staff will put forth the effort required to justify your interest in working with Inline.

Sincerely,

A handwritten signature in black ink that reads "Thomas Orkisz". The signature is written in a cursive, flowing style.

Thomas Orkisz
President
Inline Plastics Corp.

Features & Benefits

Below is a brief description of some of the many benefits that come with using Inline Plastics' packaging.

FEATURES	BENEFITS
Safe-T-Gard® Lock on Safe-T-Fresh® Containers	Prevents product tampering, no shrink band required, highly leak resistant
EZ Open Cake™ Lock	Easy to remove dome without disturbing cake icing
Double line locks or Surelock® for maximum closure security	Keeps container closed until customer opens it. Lid will not open unexpectedly during transit or while handling
Sanitary over-lid design	Lids overlap the container base to keep out unwanted crumbs or other dirt/debris
Crystal clear material	Highlights your food products and increases the opportunity for impulse sales
Relaxed hinge design	Lids will stay open and allow for food or other items to be placed in container quickly without the lid hitting your hands
Easy to open lock design	Convenient tabs allow containers to be opened quickly and easily
Stacking features	Inline Plastics' containers nest top to bottom allowing for the construction of eye-catching merchandising displays while conserving valuable shelf space
Embossing capabilities	Allows for increased branding opportunities and logo/message development
Automation friendly	Designed to function reliably with Inline's automation systems
PET  Material	Environmentally friendly, 100% recyclable PET

MATERIAL SPECIFICATIONS

All containers are manufactured from FDA conforming PET  recyclable material unless otherwise specified.

⁽¹⁾ **Disclaimer - this information is for comparative purposes only. We strongly recommend that customers test products under their specific conditions to determine fitness for use.**

Automation Systems

As a complement to our extensive line of containers, Inline Plastics is proud to be the only thermoformed container manufacturer in the industry providing proven packaging automation solutions to high volume food processors.

Container Denester

The container denester utilizes reciprocating motion and vacuum cups to pick and place empty containers onto a moving belt. All of Inline Plastics' denesters allow for quick and easy change over between container sizes. Each denest head can place 25 containers per minute. (The equipment shown in the photo is a dual head denester rated at 50 containers per minute placement),

Safe-T-Fresh® Automatic Closing Machine

The Safe-T-Fresh® Automatic Closing Machine is a powered conveyor featuring components that will close all varieties of Inline Plastics' Safe-T-Fresh® tamper evident, tamper resistant containers. The unique apparatus purges excess air from the containers and reliably engages all primary and secondary locks. The modular design allows quick and easy changeover between container sizes. Additional modules are available to adapt the system to also close Inline Plastics' Surelock® and Valu Pack® clamshell containers, or to apply top, bottom, side or wrap labels.

Automatic Locking Device (ALD)

The Automatic Locking Device (ALD) is a powered conveyor designed to close all of Inline Plastics' PET Surelock® and Valu Pack® hinged containers. The machine features adjustable guide rails for guiding the package on the conveyor. An adjustable lid closing rail flips the lid closed and a pair of locking wheels snap the container's locks together. The ALD is a continuous motion machine and will close all of Inline Plastics' containers at a rate of up to 120 units per minute. (Automated closing of our Safe-T-Fresh® containers requires using the Safe-T-Fresh® Automatic Closing Device. Automatic closing of our perimeter seal containers require a Perimeter Seal Automatic Locking Device (PALD).

Tamper Evident Labeling System I (TELS I)

The TELS I system is a powered conveyor featuring components that will apply labels to all of Inline Plastics' PET containers. The labeling system can accommodate many label positions. Top labeling is the most common and the easiest way to apply labels. Other labeling options include bottom application and leading front side application that tapers away to the bottom, providing a unique label look. Some types of label applications would require integration of the Container Rotation Device.

Automation Systems

Container Rotation Device

The Container Rotation Device is designed to re-orient product before labeling, allowing the Food Processor to express and display products in ways unique to them. Photo eye sensors are used to recognize the arrival of product and the electronics take over from there. The type of Rotation Device that best fits your needs would be determined by the speed required for the application.

Loading Conveyors

The Container Conveyor and Product Conveyor are coupled together as close as possible to minimize the operators reach, which helps reduce repetitive motion injuries.

Automatic Weigh & Fill Machine

The Automatic Weigh & Fill Machine is an automatic food product handling system that weighs and dispenses a predetermined batch weight of product into Inline Plastics' PET containers. The systems offer either single or dual vibratory feed trays that provide two-stage feeding. In addition, the Automatic Weigh & Fill Machine can be easily integrated into the remaining components of our packaging automation systems.

Safe-T-Fresh® Hand Closer

The Safe-T-Fresh® Hand Closer was designed to assist in manually closing Safe-T-Fresh® containers. The Hand Closer can be adapted to close any containers in the Safe-T-Fresh® line. The Hand Closer purges excess air from the containers and reliably engages all primary and secondary locks which ensures tamper resistance, leak resistance and seals in freshness.

The Valu Pack® line represents the best combination of price and value in the industry, ideal for merchandising a wide variety of products.

FEATURES & BENEFITS

Easy to open design

- Container and its contents will not be damaged while opening

Surelock® double line locks provide maximum security

- Keeps containers closed until customers open them
- Lid will not pop open while on display or in transit

Stacking Feature

- Conserve valuable shelf space
- Create eye-catching merchandising displays

Sanitary over lid design

- Lid overlaps base to keep out crumbs and other dirt/debris

Policy & Terms

PURCHASE ORDER REQUIREMENTS

All purchase orders must be for a minimum of 250 (combined) cases to one delivery location. Orders for less than 250 cases will be subject to a \$40 handling charge plus shipping charges. Valu Pack® items must be ordered in full pallet quantities per item. Safe-T-Fresh® items must be ordered in full pallet quantities per item, with the exception of any 8, 12, or 16 oz rectangular containers which may be ordered in 30 case quantities, and TS202 which may be ordered in 27 case quantities. The minimum order for all other items is one full pallet layer.

Purchase Orders must be in writing and include the following information:

1. Inline Plastics' item number
2. Number of cases ordered
3. Price per case
4. Purchase Order Number
5. Expected delivery date
6. Delivery address
7. Delivery appointment phone number
8. Customer's Fax number

Orders may be placed with your local sales representative, emailed to customerservice@inlineplastics.com, or faxed to Inline Plastics, attention Customer Service, 203-924-0370.

To arrange EDI transmission, please call 800-826-5567 x1.

Lead Time – orders for stock items are generally available to ship within 48 hours of receipt of order by Inline Plastics.

Orders requiring expedited delivery service will be subject to additional freight charges.

SALE POLICY

1. Truckload constitutes 26 pallets of product, filled to full visible capacity.
2. Terms: 1% 10, net 30 days from date of invoice.

EMBOSSING POLICY

Some stock containers produced by Inline Plastics can be embossed to customer specifications, subject to the following:

1. Minimum order calling for immediate shipment; varies by item. Please contact your Inline Plastics Corp. representative for details.
2. Additional charges apply for embossed product; please contact your Inline Plastics Corp. representative for details.
3. All Special Order container policies apply.
4. Lead time of 6-8 weeks.

MATERIAL OF MANUFACTURE

Containers are manufactured from PET  recyclable material unless otherwise specified. Our PETE conforms to FDA approval under Paragraph 21 CFR 177.1630.

RETURNED GOODS POLICY

1. No return items will be accepted without prior approval.
2. Items must be returned within six (6) months from shipment and invoicing by Inline.
3. All items being returned must be in good condition, in original unopened cartons, without any damage to the product; otherwise it will be refused.

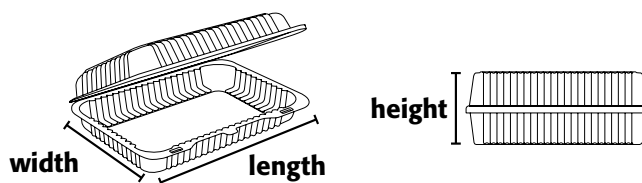

4. Once a product return has been approved, customer is issued a Return Authorization Number (RA Number), and advised of the amount of the credit that will be issued by Inline upon receipt of RESALEABLE product.
5. The amount of credit issued by Inline will be the price paid by the customer less the following:
 - a) A 20% restocking fee
 - b) The freight cost incurred by Inline to ship the product from the customer's warehouse back to the originating plant
6. Embossed, or special order items, may not be returned.
7. All requests for Return Authorization should be directed to Customer Service, 800-826-5567 or Fax 203-924-0370.

ORDERING SPECIAL ORDER CONTAINERS

1. Lead times, minimum quantities, and payment terms will vary by item and material. Call Customer Service for availability at 800-826-5567, or via e-mail at customerservice@inlineplastics.com
2. Once shipped, special order items are not subject to return under any circumstances (as long as goods conform to the order).
3. Purchase orders for special order items may not be cancelled without full reimbursement to Inline for all loss, cost, and expense incurred to the date of cancellation.
4. Special order manufacturing subject to +/- 10% under or overrun.

MEASUREMENTS

Standard volumes listed are base + lid volumes combined. All clamshell containers are generally a 50/50 base/lid split unless stated otherwise. The ID (Inside Dimensions) for containers with multiple compartments reflects each compartment's dimensions. All IDs are measured at the hinge line. The IDs for circular compartments (cupcakes, muffins, pies) list bottom diameter, top diameter, and height including lid. All ODs (Outside Dimensions) are consistent with the diagram below, and are listed in order of Length (along hinge) x Width x Height:

CREDIT CARD ORDERS

To conveniently order via credit card, please visit our online store 24 hours a day at www.inlineplastics.com. If you cannot order via our online store, please call (800) 826-5567 x7052 between 8am and 5pm EST Monday through Friday. A \$10 fee applies for credit card phone orders. Credit card orders ship within 3-5 business days. Credit card orders ship within 3-5 business days. All credit card orders are final. No returns are allowed on credit card orders.

Information in this catalog may contain technical inaccuracies or typographical errors. Information such as stock status may be changed or updated without notice. Inline Plastics Corp. may also make improvements and/or changes in the products described in this information at any time without notice.
