

MADE FROM PLANTS

HEALTHY FOR YOU, HEALTHY FOR THE PLANET

World Centric products are:

- 🌱 Foodservice products to meet your sustainability goals
- 🌱 Non-polluting, non-toxic and environmentally responsible
- 🌱 Made from renewable resources
- 🌱 Available in custom designs

COMPOSTABLE
in industrial facilities

FOOTPRINT
due to our offsets

DONATED
to positive change

AS A B CORP
we exist for good

OUR VISION

World Centric envisions a thriving world and we exist to be of service to the planet and people.

THE IMPORTANCE OF COMPOSTABLES

More than 20 million tons of plastic are placed in U.S. landfills each year. Products made from plants, not petroleum, conserve oil resources and support cleaner production methods while protecting the health of our planet and diverting waste from the landfill.

Our products are:

- **Fully compostable** in a commercial composting facility.
- Made from **annually renewable plants** such as wheat straw and corn.
- **Non-polluting** and non-toxic when composted.
- **Energy-saving.** Our eco-profile analysis shows we can make 2 compostable forks with the energy it takes to make 1 plastic fork.
- Approved for food use according to **FDA standards.**

OUR PROMISE

Quality

Our products are designed for performance, strength and aesthetic.

Certifications

Our claims are third party verified:

- Biodegradable Products Institute (BPI) certifies that our compostable products meet ASTM D6400 and ASTM D6868 standards for commercial compostability.
- USDA Biobased Product labels indicate that a product is composed partly or entirely of renewable plant material.
- Forest Stewardship Council® (FSC®) enforces responsible management of forests.
- B Corporations are a new type of corporation which use the power of business to solve social and environmental problems.
- 1% for the Planet is a global network of businesses that donate 1% of annual sales directly to approved environmental nonprofit organizations.

Manufacturing Audits

We regularly audit outsourced factories under Fair Labor Organization guidelines to ensure fair wages and working conditions.

HOW IT ALL STARTED

World Centric was founded in 2004 with a mission to reduce economic injustice and environmental degradation through education, community networks, and sustainable enterprises. We are one of the few companies in the U.S. to sell only high-quality, 100% certified compostable products while striving to be a model of sustainability and supporting nonprofit organizations. In 2010 we became a Certified B Corporation, and in 2013 converted our legal structure to a California Benefit Corporation, demonstrating our continued commitment to having a positive impact on society and the environment.

OUR PARTNERS

We are proud to partner with national and regional retailers, corporations, universities and organizations that recognize the importance of a sustainable lifestyle. Our retail and food-service customers include: Microsoft, Facebook, Genentech, Stanford University, University of California at Berkeley, Sprouts, Amazon.com, SamsClub.com, Safeway, Ralph's, Fred Meyer, Fresh Market and Novation —a supply chain GPO for the healthcare industry.

OUR GIVING

World Centric is partnering with **Backpack Medics** to build the first fixed clinic in eastern Burma, which will provide care to over 4,300 people annually, preventing hundreds of deaths from diseases like malaria, pneumonia and dysentery. www.burmamission.org

SOCIAL & ENVIRONMENTAL RESPONSIBILITY

Carbon Offsets

We partner with environmental and social organizations whose programs not only offset our carbon emissions but also create regenerative ecosystems.

Giving

Each year we donate at least 25% of our profits to support projects around the world that promote social and economic development, environmental education, and waste reduction.

Impact Accelerator

We offer zero-interest long-term loans or donations to nonprofits and social enterprises aligned with our mission and values.

Zero Waste

We strive to be a zero-waste office by reducing our consumption and diverting waste to compost and recycling.

MADE IN THE USA SILVER GRASS FIBER PRODUCTS

About Silver Grass

- ✓ Made from a perennial, non-invasive grass that thrives with minimal care and water
- ✓ Utilizes marginalized farmland unsuitable for food crops
- ✓ Provides a new source of income for American farmers
- ✓ Creates manufacturing jobs in rural America
- ✓ Carbon neutral—sequesters carbon due to long root systems

CUSTOM SIZES AND DESIGNS

Looking for a zero-waste solution for your foodservice needs? World Centric is committed to helping our customers develop custom compostable products, including unique bag sizes and specially designed containers. Contact salesinfo@worldcentric.org with your inquiry.

World Centric Products are BPI Certified

The following PRODUCTS have been found to comply with the specifications established in the American Society for Testing and Materials standard ASTM D6400 and/or D6868 in accordance with the terms and conditions of the "Biodegradable Products Institute - Certification Program for Products Made of Compostable Plastics - Program Rules":

Product	Certificate #
Natural colored molded pulp fiber products made from sugar cane bagasse and wheat straw, with a maximum thickness of 0.54mm	#1918104-4
White cutlery, bowls & plates with a max. thickness of 2.68 mm made from a BPI approved resin	#1918104-3
Clamshells, deli containers, trays, soufflé cups, straws, and cold cups and cold cup lids made from a BPI-certified resin with a maximum thickness of 0.35mm	#1918104-1
Paper cups coated with NatureWorks Ingeo PLA	#1918104-9
Compostable bags with green printing, with a max. thickness of 1.0 mil, made from BPI approved resins	#1918104-9
White-colored hot drink lids with a maximum thickness of 0.37mm, made from BPI-approved resin	#1918104-12
Food Service Items made from Miscanthus fiber (maximum thickness of 0.75mm)	#1918104-13

Certifications awarded by the Biodegradable Products Institute can be found on the World Centric website (www.WorldCentric.org) and permit the use of the Certification Program Logo depicted below subject to all conditions and terms of the Program Rules and the License Agreement between the Biodegradable Products Institute and the Licensee, World Centric.

World Centric products are USDA Certified Biobased Products, made from renewable agricultural ingredients

The USDA BioPreferred label designates biobased products that are composed wholly or significantly of agricultural ingredients—renewable plant, animal, marine or forestry materials.

All products with this label have been independently certified to meet USDA BioPreferred program standards for biobased content. Biobased products help add value to commodities, create jobs in rural communities, increase U.S. energy independence by reducing the use of petroleum in manufactured products, and may also reduce the introduction of fossil carbon into the atmosphere, thus mitigating potential climate change impacts.

SCS Global Services does hereby certify that an independent audit has been completed and conformity to the applicable standard(s) has been confirmed for:

World Centric

101 H Street, Suite M, Petaluma, CA 94952-5152, United States

This certificate covers the trade of paper products using the transfer system.

The facility(s) are hereby Chain of Custody certified to sell products as:

FSC Mix

The assessment has been conducted by Scientific Certification Systems (SCS) in accordance with the rules of the Forest Stewardship Council® A.C. (FSC).

FSC Standard: FSC-STD-40-004 V2-1

Certificate Code: SCS-COC-002849 Trademark License Code: FSC-C028481

Valid from 12 November 2014 to 11 November 2019

This certificate itself does not constitute evidence that a particular product supplied by the certificate holder is FSC-certified (or FSC Controlled Wood). Products offered, shipped or sold by the certificate holder can only be considered covered by the scope of this certificate when the required FSC claim is clearly stated on sales and delivery documents, and the validity of the certificate has been verified on <http://info.fsc.org>. A list of products that are included in the scope of this certificate may be found at <http://info.fsc.org> or will be provided by SCS on request. The certificate shall remain the property of SCS, and this certificate and all copies or reproductions of this certificate shall be returned to SCS immediately upon request.

REPORT 1006085

REPORT DATE: June 22, 2010

REPORT TO: Aseem Das
World Centric
2121 Staunton Ct
Palo Alto, CA 94306
Tel: (650) 283-3797
Fax: (866) 850-9732

SUBJECT: Sample for Gluten Analysis

RECEIVED: June 21, 2010 UPS 2nd Day Air TRK# 1Z 3V8 2E1 02 4165 2530

ANALYTICAL RESULTS:

CONTROL #	SAMPLE DESCRIPTION	ANALYSIS IDENTIFICATION	Gluten*
1006085-1	Wheat Straw Plates	500821 Quantitative Gluten ELISA	< 5 ppm

RESULTS APPLY ONLY TO THE SAMPLES TESTED

***NOTES:**

The assay utilizes ELISA techniques and is designed for the measurement of cereal gluten at low levels, nominally within a range of 5-80 PPM, in raw materials and finished food products; it detects both the gliadin and glutenin fractions of gluten.

These samples were tested using a "high sensitivity" modification of the gluten assay procedure, which enables a detection limit of 5 ppm gluten in most sample matrices. The quantitation limit for your sample(s) was 5 ppm.

Respectfully Submitted for **ELISA Technologies, Inc.**

Corporation™

bcorporation.net

Declaration of Interdependence

*We envision a new sector of the economy
which harnesses the power of private enterprise to create public benefit.
This sector is comprised of a new type of corporation — the B Corporation —
which is purpose-driven, and creates benefit for all stakeholders, not just shareholders.*

As members of this emerging sector and as entrepreneurs and investors in B Corporations,

*We hold these truths to be self-evident:
That we must be the change we seek in the world;*

That all business ought to be conducted as if people and place mattered;

*That, through their products, practices, and profits, businesses should aspire to
do no harm and benefit all.*

*To do so, requires that we act with the understanding that we are each dependent
upon another and thus responsible for each other and future generations.*

the change we seek™

WHY USE OUR PRODUCTS?

Sustainable Materials

Made from **annually renewable plants** like sugarcane fiber, corn and wheat straw instead of non-renewable petroleum (plastics and styrofoam). Sugarcane fiber and wheat straw products are the most sustainable as they are made from discarded agricultural by-products.

Reduce Waste

Plastic and styrofoam are derived from petroleum and create pollution and toxicity during production, use, and disposal. Compostables come from plants. They are non-toxic, non-polluting, and **reduce waste going into landfills**. They biodegrade in a commercial composting system and produce nutrient-rich soil in 3-4 months, while plastics and styrofoam persist for hundreds of years in the environment.

Use Less Energy

Our products **require less energy** to produce than petroleum-based products and reduce greenhouse emissions, lessening the impact of global warming.

ACCORDING TO OUR ECO-PROFILE ANALYSIS

Compostable Products

*An eco-profile analysis measure the energy and other inputs required to make a product, from the extraction or harvesting of raw materials to the finished product at the factory gate.

OUR PRODUCTS ARE RESPONSIBLE FROM START TO FINISH

CONFORM TO ASTM D-6400 STANDARD & BPI CERTIFIED

COMPOST IN 3-4 MONTHS IN A COMMERCIAL COMPOSTING SYSTEM

SILVER GRASS FIBER, SUGAR CANE FIBER, WHEAT STRAW FIBER PLATES, BOWLS, TRAYS AND CLAMSHELLS

- Made from plants, such as wheat Straw, sugarcane, silver grass, or bamboo
- No wax or plastic lining
- Freezer safe
- Conform to FDA guidelines for food use

TPLA (70% PLA AND 30% TALC) UTENSILS

- Made from non-GMO cornstarch and talc
- Conform to FDA guidelines for food use

PAPER HOT CUPS AND BOWLS WITH INGeo™ LINING

- Made from Forest Stewardship Council® paper
- InGeo™ lining made from corn
- Conform to FDA guidelines for food use

COLD CUPS, DELI CONTAINERS, STRAWS, HOT CUPS AND HOT CUP LIDS

- Made from InGeo™ compostable plastic, derived from corn grown in the USA
- Conform to FDA guidelines for food use

TRASH, SHOPPING & YARD WASTE BAGS

- Made from a mixture of synthetic and starch based plastics
- Strong and durable
- Many different sizes available
