PAPER PRODUCTS

## Silverware bags are sustainable:

Our bags are recyclable, biodegradable, commercially compostable, and this natural kraft bag is made from paper containing at least 50% post-consumer waste. That shows your brand's commitment to sustainability!

## Silverware bags save labor:

A study by a national chain comparing the use of our silverware bags to wrapping with a napkin and band showed a 40% time savings. That's a lot of labor hours and dollars saved!

## Silverware bags are sanitary:

Once silverware has been cleaned, sanitized, and placed in our bag, the next and only person to touch it is the customer. That's peace of mind for the diner!
