- Ideal for Quat, Bleach, and Phenol based compounds.
- Greatly reduces surface cross-contamination of pathogens.

### EFFECTIVE & CONVENIENT FOR USE IN:

Education

Fitness

Grocery

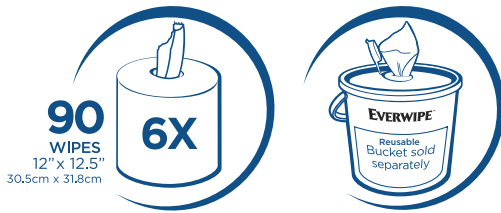

Healthcare

Food Service

# EVERWIPE™

## CHEM-READY WIPING SYSTEMS

1. Place roll in bucket
2. Add 1 quart of solution
3. Attach lid and wipe surfaces clean!

### Chem-Ready System (Cleaner, safer and easier)

Everwipe's Chem-Ready material is specifically designed to work with all the most popular types of sanitizers and disinfectants. This exclusive material performs like a wiper but does not bind quaternary chemicals like ordinary towels and wipers can. The unique material apertures not only trap particles they help scrub the surface.

#### Features & Benefits

Everwipe's Chem-Ready delivery system allows you to create your own wet wipe system with whatever surfactant is best for your application. The closed system greatly reduces the possibility of surface cross contamination of pathogens. The small roll put-up when used in the Chem-Ready bucket is extremely portable, easily resealed and spill proof. Ideal for use with quaternary, bleach and phenol-based compounds. The system is cleaner, safer and easier than open bucket or spray type systems.

Product ID	Description	Unit Dimensions	Case/Pack	Cs/ Pallet	Cs./ Layer	Cs./ Wt.	Cs/ Cube (c.f.)
