

# INNOVATION

*Creating the Solutions Your Customers Crave.*

Safe-T-Fresh®

PULL TAB, LIFT CORNER

**Hello and thank you for your interest in the Inline Plastics Corp. product catalog.** As the Owner and President of Inline Plastics, I am pleased to introduce you to our Company and the many packaging products and services that we have to offer.

**Innovation. Quality. Service. These are just a few of the things that set us apart at Inline Plastics.** From the solid relationships we build with our customers, to the exceptional packaging and services we provide, you'll see our difference from the start. We are proud of our steadfast growth and state-of-the-art operation, and we remain a family business committed to the core values that have fueled our success for more than 45 years.

The Company was founded in 1968 by my late father, Rudolph, and his brother, Gene. Inline Plastics has grown from its humble beginnings in a family home in Bridgeport, Connecticut, to a Company with over 400 employees occupying five facilities in the United States.

Inline's corporate headquarters, Northeast manufacturing facility, and distribution center, are located in Shelton, Connecticut. Research and Development, tool design and fabrication in support of our three manufacturing plants, are housed in Milford, Connecticut. In the West, we meet customer needs efficiently through our manufacturing and distribution facility in Salt Lake City, Utah; while our newest facility, in McDonough, Georgia, enhances our ability to service our growing customer base in the South and Midwest. Inline operates state-of-the-art thermoforming equipment and robotic packaging machinery at its production facilities, in addition to utilizing the newest technology available for engineering and tooling. At Inline, we emphasize continuous improvement in production efficiency that provides our customers with the highest levels of quality and customer service.

**As testament to our commitment to environmental stewardship, Inline has converted the manufacture of all of its stock products to a new low carbon footprint recyclable PET ♻️ material.** This PET material is produced using a unique, energy-efficient propriety process and has been shown to have a carbon footprint as low as competitive materials made from 50% post-consumer recycled plastic. Inline's stock line of over 400 containers is supported by a group of packaging automation systems that are tailored to handle and process the packing of our containers. Proven solutions for production line automation exist, and our experienced engineering staff will be happy to assist you in integrating our automation systems into your current process and facilities. From container de-nesting, loading, closing and locking, to tamper-evident labeling, Inline Plastics is proud to be the only company in the industry providing automation solutions that will help to reduce your labor costs while also increasing your product throughput and operating efficiencies.

**At Inline Plastics, our mission is to be the best at supplying our customers with innovative, high quality, and cost effective packaging and packaging automation solutions.** I invite you to visit our new website at [www.inlineplastics.com](http://www.inlineplastics.com) often for news and new product updates and to find out more about how we can help meet your packaging needs. In a very competitive market that offers many different packaging options, we are pleased that you have shown an interest in our products and services. Rest assured that our dedicated staff will put forth the effort required to justify your interest in working with Inline.

Sincerely,

A handwritten signature in blue ink that reads "Thomas Orkisz". The signature is fluid and cursive, with a long, sweeping underline that extends to the right.

Thomas Orkisz

President, Inline Plastics Corp.

# Features & Benefits

Below is a brief description of some of the many benefits that come with using Inline Plastics' packaging.

FEATURES	BENEFITS
<b>Safe-T-Gard® Lock on Safe-T-Fresh® Containers</b>	Prevents product tampering, no shrink band required, and provides a highly leak-resistant container.
<b>EZ Open®/Crystal Vue® Cake Lock</b>	Easy to remove dome without disturbing cake icing.
<b>Double line locks on Surelock® for maximum closure security</b>	Keeps container closed until customer opens it. Lid will not open unexpectedly during transit or while handling.
<b>Sanitary over-lid design</b>	Lids overlap the container base to keep out unwanted crumbs or other dirt/debris.
<b>Crystal clear material</b>	Highlights your food products and increases the opportunity for impulse sales.
<b>Relaxed hinge design</b>	Lids will stay open and allow for food or other items to be placed in container quickly without the lid closing on hands.
<b>Easy to open lock design</b>	Convenient tabs allow containers to be opened quickly and easily.
<b>Stacking features</b>	Inline Plastics' containers nest top to bottom allowing for the construction of eye-catching merchandising displays while conserving valuable shelf space.
<b>Embossing capabilities</b>	Allows for increased branding opportunities and logo/message development.
<b>Automation friendly</b>	Designed to function reliably with Inline's automation systems.

FEATURES & BENEFITS

## A BETTER PROCESS...

- A Proprietary Extrusion Process Eliminates 5 Stages of Conventional APET Sheet Production Process
- Increases Productivity and Reduces Waste
- Decreases Manufacturing Energy Consumption by 65%
- 25% Lower Carbon Footprint than Competing APET Material
- Equal or Lower Carbon Footprint to rPET Containing up to 50% Post Consumer Content
- Environmentally Friendly, 100% Recyclable ♻️ PET

## A BETTER PRODUCT

### New Process Enhances Product Presentation & Shelf Impact

- Superior Gloss
- High Clarity & High Definition
- Unmatched Uniformity
- Higher Resistance To Cracking

# CONFIDENCE

*Knowing that your Customer's Products will be Safe.*

## *Safe-T-Fresh*<sup>®</sup> Tamper-Evident, Tamper-Resistant Packaging.

The unique, patented **Safe-T-Gard**<sup>®</sup> tamper-resistant locking mechanism and perimeter seal, lock in freshness; extending the life of your products.

*As The Original Innovator of Tamper-Evident, Tamper-Resistant Clamshell Containers,*  
Inline Plastics has the experience and product innovation that outperforms market imitators in the following ways:

### Tamper-Evident / Tamper-Resistant

1 Secondary Locks, 2 Lock Support Posts, 3 Recessed Lid Trim and 4 **Safe-T-Gard**<sup>®</sup> tear strip with non-slip textured grip - *All work in conjunction to keep freshness in and unwanted tampering out!*

### Stackability

5 The stackable design provides greater stability for multi-level merchandising, allowing you to offer more product to your customers.

### Container Clarity

Unmatched superior clear-view lid, minimal ribbing and larger viewing panels **highlight your product and NOT the container.**

### Hinge Strength

Robust hinge of **Safe-T-Fresh**<sup>®</sup> is less likely to be damaged during transit, on the floor, or during normal handling, decreasing loss of product and costly returns.

## ◀ FLOOR-CARCUP-RACK

### Safe-T-Fresh® Car Cup 5-Tier Floor Rack

This 16" wire floor rack will hold thirty (30) TS12CCR or TS12CCRD containers (or combination thereof). Signholder included. White epoxy finish. Easy to assemble.

Dimensions: 16" diameter x 61" tall

Case Pack: 1

Weight: 7.0 lb.

Cubic Feet: 1.81

UPC Code: 707068010636

## COUNTER-CARCUP-RACK ▶

### Safe-T-Fresh® Car Cup 2-Tier Counter Rack

This 13 13/16" wire counter top rack will hold twelve (12) TS12CCR or TS12CCRD containers (or combination thereof). Signholder included. White epoxy finish. Easy to assemble.

Dimensions: 13 13/16" diameter x 17 9/16" tall

Case Pack: 1

Weight: 3.0 lb.

Cubic Feet: 0.57

UPC Code: 707068010629

We reserve the right to substitute racks with equivalent design features that may differ cosmetically from these photos.

Independent testing confirms that our container design **INCREASES SHELF LIFE UPTO 33%**, depending on contents.

# SOFT STAYS SOFTER, CRISP STAYS CRISPIER... LONGER

## Crystal Fresh®

Are Crystal Clear Merchandising and Longer Shelf Life Important to You?

Our **Crystal Fresh®** seal design combined with the advanced moisture control of PET keeps food fresher, longer.

*With Crystal Fresh®, you get more out of the container than you put into it.*

**Easier Opening**

Easy grip tabs help customers enjoy grab-and-go purchases.

**More Enticing Presentation**

A cleaner, clearer no-rib design.

**Stackability**

The stackable design allows you to offer more product via multi-level merchandising.

**Proof of Freshness**

Be confident that your products will stay fresh with the Audible Closure assurance on all 4 corners.

# THE NEXT GENERATION OF FOOD PACKAGING

## Visibly Fresh<sup>®</sup> Packaging

Where Value and Freshness go Hand in Hand

Our **Visibly Fresh<sup>®</sup>** perimeter seal design *increases product shelf life up to 33%\**.

### Easier Opening

Larger, easy grip tabs help customers enjoy grab-and-go purchases.

### Rigid, Crystal Clear Plastic

Promotes quality of contents and increases impulse sales.

### Secure Stacking

Conserves shelf space and creates eye-catching displays.

### Minimal Ribbing

Upscale design for more attractive product merchandising.

\*Independent testing confirms that our container design increases shelf life up to 33%, depending on contents.

-  Offset top and bottom tabs for easy opening
-  Dome style lid for easy loading
-  Stackable to preserve valuable shelf space

# VERSATILE & CONVENIENT

## The Standard in Dependability and Efficiency

The broadest most complete line of clamshell packaging for your customer's every need.

### Easy to Open Design

Container and its contents will not be damaged while opening.

### Surelock® Security

Double line locks provide maximum security and prevent lids from opening while on display.

### Sanitary Lid Design

Sanitary lid design overlaps base to keep out crumbs and other contaminants.

### Stackability

Conserve valuable shelf space while creating eye-catching merchandising displays.

# CLASSICALLY SUPERIOR

The Trusted Standard in Utility Packaging  
 Representing the best combination of value and quality.

### Surelock® Security

Double line locks provide maximum security and prevent lids from opening while on display.

### Sanitary Lid Design

Sanitary lid design overlaps base to keep out crumbs and other contaminants.

### C-Cutout Design

Allows use of wrap-around labels to improve branding and tamper-evidence.\*

### Stackability

Stackable design allows for efficient and effective merchandising while conserving shelf space.

### Easy to Open

Convenient tabs allow container to be opened quickly and easily.

\* does not apply to VPP746, VPP756 and VPP781.

The Valu Pack® line represents the best combination of price and value in the industry, ideal for merchandising a wide variety of products.

**Features & Benefits:**

-  **Easy to Open Design** - convenient tabs allow container to be opened quickly and easily.
-  **Tactile Closure** - distinctive snap provides an audible and tactile closure confidence
-  **100% Recyclable PET** - promote your commitment to environmentally responsible packaging
-  **Automation Friendly** - as a complement to an extensive line of containers, automation solutions increase your operating efficiencies
-  **Denesting Lugs** - easy one handed separation

# Policy & Terms

## PURCHASE ORDER REQUIREMENTS

All purchase orders must be for a minimum of 250 (combined) cases to one delivery location. Valu Pack® items must be ordered in full pallet quantities per item. Safe-T-Fresh® items must be ordered in full pallet quantities per item, with the exception of any 6, 8, 12, or 16 oz. rectangular containers which may be ordered in 30 case quantities and TS202 which may be ordered in 27 case quantities. The minimum order for all other items is one full pallet layer.

Purchase Orders must be in writing and include the following information:

1. Inline Plastics' item number
2. Number of cases ordered
3. Price per case
4. Purchase Order Number
5. Expected delivery date
6. Delivery address
7. Delivery appointment phone number
8. Customer's E-mail address and Fax number

The original purchase order needs to be emailed directly to customerservice@inlineplastics.com or faxed to Inline Plastics, Attention: Customer Service, 203-924-0370.

To arrange EDI transmission, please call 800-826-5567 x7650.

Lead Time – orders for stock items are generally available to ship within 5 business days of receipt of purchase order by Inline Plastics. Cut off time for orders 3:00 PM Eastern Time.

## SALE POLICY

1. All orders are shipped F.O.B. point of origin.
2. Orders meeting purchase order minimums are shipped freight prepaid to points in the continental U.S. and Canada.
3. Orders for less than 250 cases will be subject to a \$40 administration fee plus freight charges.
4. Truckload constitutes a minimum of 26 pallets of product, loaded to full visible capacity.
5. Orders requiring expedited delivery service will be subject to additional freight charges. (Expedited service shall be less than 5 days' notice to ship via regular freight service.) Guaranteed delivery service is subject to an additional \$100 fee. Truckload team service is subject to an additional fee of \$.25 per mile shipped.
6. Terms: 1% 10, net 30 days from date of invoice.

## EMBOSSING POLICY

Some stock containers produced by Inline Plastics can be embossed to customer specifications, subject to the following:

1. Minimum order calling for immediate shipment; varies by item. Please contact your Inline Plastics Corp. representative for details.
2. Additional charges apply for embossed product; please contact your Inline Plastics Corp. representative for details.
3. All Special Order container policies apply.
4. Lead time of 6-8 weeks.

## MATERIAL OF MANUFACTURE

Containers are manufactured from PET recyclable material unless otherwise specified. Our PET conforms to FDA approval under Paragraph 21 CFR 177.1630, for direct food contact.

## RETURNED GOODS POLICY

1. No return items will be accepted without prior approval.
2. Items must be returned within six (6) months from shipment and invoicing by Inline.
3. All items being returned must be in good condition, in original unopened cartons, without any damage to the product; otherwise it will be refused for credit.
4. Once a product return has been approved, customer is issued a Return Authorization Number (RA Number), and advised of the amount of the credit that may be issued by Inline upon receipt of RESALEABLE\* product pending QA inspection.
5. The amount of credit issued by Inline will be the price paid by the customer less the following:
  - a) A 20% restocking fee
  - b) The freight cost incurred by Inline to ship the product from the customer's warehouse back to the originating plant
  - c) Any product rejected during QA inspection
6. *Embossed or special order items may not be returned.*
7. All requests for Return Authorization should be directed to Customer Service, 800-826-5567 or Fax 203-924-0370.

*\*Resaleable product must pass Inline Plastics' Quality Assurance inspection*

## ORDERING SPECIAL ORDER CONTAINERS

1. Lead times, minimum quantities, and payment terms will vary by item and material. Call Customer Service for availability at 800-826-5567, or via e-mail at customerservice@inlineplastics.com
2. Once shipped, special order items are not subject to return under any circumstances (as long as goods conform to the order).
3. Purchase orders for special order items may not be cancelled without full reimbursement to Inline for all loss, cost and expense incurred to the date of cancellation.
4. Special order manufacturing subject to +/- 10% under or overrun.

## MEASUREMENTS

Standard volumes listed are base + lid volumes combined. All clamshell containers are generally a 50/50 base/lid split unless stated otherwise. The ID (Inside Dimensions) for containers with multiple compartments reflects each compartment's dimensions. All IDs are measured at the hinge line. The IDs for circular compartments (cupcakes, muffins, pies) list bottom diameter, top diameter, and height including lid. All ODs (Outside Dimensions) are consistent with the diagram below, and are listed in order of Length (along hinge) x Width x Height:

Information in this catalog may contain technical inaccuracies or typographical errors. Information such as stock status may be changed or updated without notice. Inline Plastics Corp. may also make improvements and/or changes in the products described in this information at any time without notice.

# QUALITY & EFFICIENCY

## AUTOMATION

**Inline Automation** - the best combination of quality and efficiency.

Inline Plastics is the only thermoformed container manufacturer in the industry providing proven in-house packaging automation solutions.

***We not only master automation. We share it.***

People love our packaging, but that’s not all we’re known for. Inline Plastics is the only thermoformed container manufacturer in the industry that can also provide you with proven packaging automation solutions as well as best in class packaging. That means a complete, packaging solution that can get your products into the market with less effort, more efficiency—and even more cost savings.

***An out-of-the-box packaging solution for you.***

Our Automation systems and solutions represent the ideal combination of quality and efficiency, offering a range of business advantages:

- Increased product throughput
- Greater operating efficiency
- Lower internal costs
- Lower pricing for your customers
- Higher sales (we’ve seen increases for clients up to 30%)
- Reduced labor costs, workplace injuries and more.

***What solution works best for you?***

We will be happy to discuss your automation needs in person and explain how each system can be integrated into your current processes and facilities. Our automation systems and equipment options include:

- Reciprocating Placer & Product Loading Conveyor
- Automatic Locking Device
- Tamper-Evident Labeling System
- Safe-T-Fresh® High Speed Closing Machine
- Safe-T-Fresh® Hand Closer

Each of these innovative solutions is backed by our skilled engineering support team. We handle the initial system setup, training for you and your staff, and offer ongoing technical support for the life of the system. **Contact us today and learn more.**

# Automation Systems

## Reciprocating Placer

**Dispense. Place. And transport your product. Faster than ever.**

Get your product from A to B faster and more efficiently than ever. **Inline Plastics' Reciprocating Placer** is an innovative machine that takes containers from a stack, dispenses and places them quickly and easily onto our Product Loading Conveyor.

Working with the best manufacturers, we've integrated our top-of-the-line reciprocating placers with our complete automation line to deliver a system that reliably and accurately dispenses, places, and transports clamshell packaging more efficiently.

We have systems available to satisfy production speeds up to 120 units per minute. An added bonus is that the equipment setup and changeover time can typically be completed in less than 10 minutes. **Get a move on it. Make it yours today.**

## Product Loading Conveyor

**Loads your product the Inline way.**

You'll be amazed at what custom automation can do for your throughput—and your bottom line. **Our Product Loading Conveyor** makes loading your product into our packaging fast, efficient and effortless. Let us handle the difficult tasks like loading tall lid containers and other situations that don't work well with standard conveyers.

Our design engineers leave no stone unturned in their efforts to insure that proper integration with our reciprocating placer and our patented automatic locking device is achieved allowing for smooth, consistent transitions from one piece of equipment to another. Our conveyors can also be equipped with quick changeover guide rails, that will allow you to run a multitude of packaging with minimal setup time.

**Get your product moving! Learn more today.**

## Automatic Locking Device

**Seals the deal. 120 times a minute.**

When you close and seal faster, your productivity soars. **The Inline Plastics' Automatic Locking Device (ALD)** is our patented conveying system that quickly and efficiently closes all of our **Surelock®** and **Valu Pack®** clamshell containers—saving you labor, time and costs.

This innovative, continuous motion conveyor features adjustable guide rails, a lid closing rail, and container locking wheels. It is stunningly quick, too. Our ALD is capable of closing Inline hinged containers at rates up to 120 units per minute! You'll quickly wonder how you ever managed without it.

Note: Automated closing of our **Safe-T-Fresh®** containers requires the use of the **Safe-T-Fresh® High Speed Closer** and automatic closing of our perimeter seal containers requires a **Perimeter Seal Automatic Locking Device**.

# Automation Systems

## Tamper-Evident Labeling System

*Keep it safely closed until it's in the customer's hands.*

Want a fast, easy way to label your product and keep containers tamper-resistant? We have you covered. Our **Tamper-Evident Labeling Systems** can integrate with our automated packaging system to apply a wrapped label to the front edge of our PET clamshell containers. It keeps your product safe and secure until a customer breaks the seal.

This innovated system can accommodate many label positions including top and bottom labeling, which is the easiest and most common way to apply labels. An optional container rotation feature rotates the container so other labeling options are available, including leading front side application in which the label tapers away to the bottom, providing a unique label look. Additional labeling options include C-Clip front wrap or TELS wrap labels.

With our system, you have many ways to customize your packaging while keeping it closed and tamper-resistant.

## Safe-T-Fresh® High Speed Closing Machine

*Our closing system opens up all kinds of productivity.*

This automation innovation closes the deal on our rectangular Safe-T-Fresh® containers up to 200 times per minute! That means more product throughput and bigger cost savings for you.

The **Safe-T-Fresh® High Speed Closer** is a powered conveyor featuring components that will close most rectangular varieties of Inline Plastics' Safe-T-Fresh® tamper-evident, tamper-resistant containers. It features an improved design that can close 6 oz. - 16 oz. containers up to 200 units per minute, while closing larger 20 oz. - 32 oz. containers at speeds up to 100 units per minute. Plus, it offers a unique feature that purges excess air from the containers as it closes them.

Our High Speed Closer is versatile, too. With a modular design, it can be used alone, or mated easily to a packing conveyor or labeler. Changeover between container sizes is quick and easy (with no tools needed) while its continuous motion allows for random product feeding.

## Safe-T-Fresh® Hand Closer

*Want faster closing? Let us give you a hand.*

If your operation requires manual closing, we have an option just for you.

Our **Safe-T-Fresh® Hand Closer** is designed to increase your productivity and throughput—while allowing for fast changeover between containers and sizes.

This innovative device assists in manually closing Safe-T-Fresh® containers faster than you could by hand. It can be adapted to close most containers in the Safe-T-Fresh® line, while purging excess air from the containers to seal in freshness.

It reliably engages all primary and secondary locks, to ensure tamper-resistance, leak-resistance and keep your product safe and secure. You'll marvel at how beneficial you'll find this helping hand.

All Purchases are backed by Engineering support that includes setup and training upon initial placement, and ongoing technical support for the life of the machine. Contact your local Inline Plastics' Representative to schedule an Engineering visit.
