TABLE TURNERS[®]

No-Rinse Sanitizing Wipes

Don't let cross-contamination ruin your reputation. **Sani Professional**[®] brings you a breakthrough new product to address the ever-increasing food industry regulations for front-of-house and back-of-house cleaning and sanitizing. Introducing Table Turners[®] No-Rinse Sanitizing Wipes. It's pre-measured with an EPA-accepted level of sanitizing solution that helps prevent cross-contamination from bacteria. Each single-use disposable wipe is housed in our patented and proprietary Eco-Pak[®] for easy dispensing. Lose the dirty rag and bucket - make cleaning easier for your employees, create a better impression with your customers, and **save money!**

Table Turners® No-Rinse Sanitizing Wipes are a better way to clean and sanitize.

Easy to use – no mixing or measuring required

Effective against common foodborne pathogens such as *E.coli* and *Salmonella**

Single use – disposable wipes help reduce the risk of cross-contamination

*refer to Tech Data Bulletin for details

The *Total* Cleaning Solution

Innovative!

TripleTake™ dispenser Brings it all together for FOH and BOH

Use our innovative carrying and dispensing system designed specifically for Table Turners®.

Measures what really matters

The QuatCheck Kit helps you verify the concentration levels of quat sanitizers used in your cleaning and sanitizing products.

Savings at every turn

Table Turners® are a more cost-effective solution than the traditional rag and bucket. Check your savings at: tsw.wipeyourworldclean.com
